

## Spa-licious Las Vegas

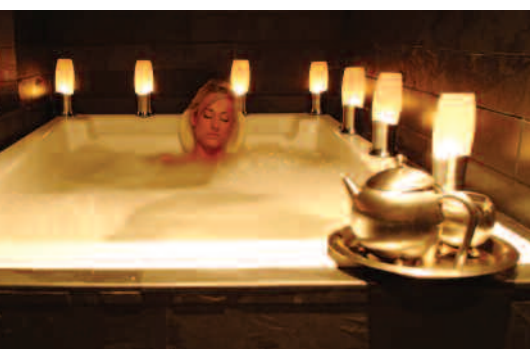

On the WSA shuttle, the last stop is bliss BY STEVIE WILSON

**A**t WSA this summer, more than the shoes are hot. The average high temperature in Las Vegas in August is 102°, with a mean (and we mean, *mean*) of 89°. Short-term strategy: Beat the searing heat by drinking lots of water and juices. Skip the colas and coffee, which can increase dehydration. And it's equally important to give yourself some extra TLC. Spa treatments will soothe body and mind, leaving you refreshed and energized. Skip the taxis and the traffic by hopping into a shuttle to one of the resort spas on the WSA route, making transportation a snap.

The Bathhouse Spa features unique treatments with aromatherapy. The treatment finishes gently with a soothing foot ritual.

**Scent-Tao Gemstone Facial:**  
80 minutes, \$190.

The **Gentleman Only Facial** uses organic products combined with steaming towels for a cleansing, soothing effect. A face, neck and hand massage is performed with unscented, non-greasy lotion to make it a relaxing treatment while getting masculine skin in good shape.

**Gentleman Only Facial: 50 minutes, \$135. Gentleman Only Facial with Hand & Foot Paraffin Treatment:**  
80 minutes, \$190.

In the **Mandalay Hot Stone Massage**, volcanic stones, placed on either side of the spine between every two to three vertebrae, relax the spinal muscles. The stones radiate their magic for five to 10 minutes while the rest of the back, legs and arms are massaged. Rose oils activate the volcanic stones, drawing toxins from the body. Add the deep tissue massage for an even more blissful experience.

**Mandalay Hot Stone Massage:**  
50 minutes, \$145. **Hot Stone with Deep Tissue Massage:**  
50 minutes, \$160.

For those who need a bit more restoration and repair, try the **Dilo Repair Body Wrap**. The Dilo nut heals inflammation, rashes and scars, and the people of Fiji have used it for centuries to heal skin damaged by sun exposure. This treatment combines Dilo with aloe vera, coconut and Fiji nut oils.  
**Dilo Repair Body Wrap:**  
25 minutes, \$75.

## LAS VEGAS: WHERE TO RELAX THIS WEEK

### Spa Bellagio and Salon Bellagio

Bellagio Resort  
3600 Las Vegas Blvd. S.  
(702) 693-7472 (spa appointments); (702) 693-8080 (salon appointments)

For men, **The Royal Shave** at Salon Bellagio is a return to vintage barbershop treatments. The pampering starts with a steaming hot towel to soften the beard. Warm shaving cream is then applied and the face is shaved twice. After another hot towel, the barber prepares a botanical mask of desert clay, calendula, and almond and jojoba oils to nourish the skin. Once the mask dries, natural sea sponges soaked in lemon essential oil carefully remove it. **The Royal Shave: 45 minutes, \$60.**

The signature Bellagio spa treatment is the **Tropical Enzyme Escape Treatment** for the face and body. Mango, pineapple and papaya lend their effective enzymes, along with Vitamin E and pure marine collagen to remove dead cells from the skin surface. This allows the products to penetrate without having the potential irritation of a peel. The next ingredient is freeze-dried collagen, covered with a thin botanical veil to hydrate, lift and plump the skin. **Tropical Enzyme Escape: 80 minutes, \$350.**

### The Canyon Ranch SpaClub

The Venetian Resort Hotel & Casino  
3355 Las Vegas Blvd. S., Ste. 1159  
(877) 220-2688;  
(702) 414-3600

**The ME! Bath Ice Cream Pedicure** is a refreshing, fun pedicure with a twist. It starts with a moisturizing ME! Bath Ice Cream Scoop (try Choco-holic, Vanilla Purity or Strawberry Kiwi). Shower Sherbet cleanses and exfoliates the feet, and the ME! Bath Ice Cream Sandwich pumice stone buffs, sloughs and smoothes those tootsies. Next comes the ME! Bath Foot Mask, which includes chocolate, caramel and marshmallow flavors, as well as a tingly mint. A whipped ME! Bath Body Icing, a cross between a lotion and body butter, melts into the skin, nourishing it with shea butter and vitamins. If you must have the cherry atop that "sundae," try red nail polish to finish the sweet treat for the feet. **ME! Bath Ice Cream Pedicure: 50 minutes, \$95.**

During the **Euphoria Treatment**, music plays softly as you are draped in bath sheets and your face is enveloped in towels infused with sage oil. A warm botanical body mask follows an aromatherapy scalp massage. When this mask is buffed off, you are immersed in a soaking tub for a revitalizing bath. It concludes with a light massage with warm, herb-infused oil. You will walk out on a cloud! **Euphoria Treatment: 100 minutes, \$300; \$310 from Friday to Monday.**

**The Ionithermie Cellulite Reduction Program**, developed by a French surgeon, is the only therapy available to help detoxify the body, reducing the appearance of cellulite and offering substantial inch loss in a single session. Products rich in sea nutrients like algae, ivy and kelp are propelled into fatty areas. The detoxifying ingredients help drain fluids from fat cells and smooth the puckered appearance. The therapist will offer nutritional guidance and a home program. While one (or more) inches can be lost in a single session, the full course of five gives the maximum effect. **Ionithermie: one session, 50 minutes, \$140; three-session package, \$350; five-session package, \$560.**

**The Visible Brilliance Facial** will firm, hydrate and plump skin that's been mistreated by the August heat. It smoothes and restores youthful tone and texture, increasing skin's elasticity by almost 20 percent. This facial includes the Japanese silk eye-zone therapy, a silk protein compress combined with phytoamine biocomplexes, algae and Eternal Synergy active absolute essences. **Visible Brilliance Facial: 50 minutes, \$175. ■**
